A. Contract Documents

The contract documents consist of the Notice Inviting Bids; Instructions to Bidders: Proposal; Agreement; Architectural Plans and supporting documents; General Conditions and Specifications; Supplemental Plans and Specifications; Contract Bonds and Addenda, if any.

B. Contract

The contract is the written agreement covering the performance of the work and the furnishing of labor, materials, tools, and equipment in the construction of the work.

It includes supplemental agreements amending the work contemplated, and which may be required to complete the work in a substantial and acceptable manner.

Supplemental agreements are written agreements covering alterations, amendments, or extensions to the contract and include contract change orders.

C. Proposal

The written proposal of a bidder to perform the work when entered onto the prescribed proposal forms, properly signed and guaranteed, and properly submitted.

D. Bidder

Any individual, firm, partnership, or corporation submitting a proposal for the work contemplated, acting directly or through a duly authorized representative.

E. Contractor

The contractor is the person, firm, corporation, or authorized representative entering into the contract with the owner to perform the work required by the contract documents in the project area.

F. Owner

The owner is the property owner of the subject property that is identified as such in the agreement, or his or her authorized representative.

G. Housing Specialist

Housing Specialist means the City of Redding staff member designated as such or an authorized representative of the Housing Manager.

H. City

The City means the City of Redding, California, within which the project area is situated.

I. Project Area

The Project Area means the specific location where the work is to take place.

J. Date of Execution

The date on which the contract is signed by the owner or the owner's authorized representative.

K. Days

Unless otherwise specifically stated, the term "days" shall be understood to mean calendar days.

L. Work

The term "work" means all the work specified, indicated, shown, or contemplated in the contract documents, including all alterations, amendments, or extensions thereto made by contract change order or other written orders of the Good News Rescue Mission.

M. Plans and Specifications

The term "Plans" refers to the official written specifications and plans, profiles, crosssections, elevations, details, and other working drawings and supplementary drawings, or reproductions thereof, signed by the Good News Rescue Mission which show the locations, character, dimensions, and details of the work to be performed.

Plans and specifications may either be bound in the same book as the balance of the contract documents or bound in separate sets, and are a part of the contract documents regardless of the method of binding.

III. BIDDER'S UNDERSTANDING

The bidder shall examine carefully the site of the work contemplated and the contract documents thereof. The submission of a proposal shall be conclusive evidence that the bidder has investigated and is satisfied as to the conditions to be encountered, and as to the character, quality, quantities, and any irregularities of work to be performed and materials to be furnished, and as to the requirements of the contract documents.

COOPERATION AND COLLATERAL WORK. The Contractor shall be responsible for ascertaining the nature and extent of any simultaneous, collateral, and essential work by others. The Owner, its workers and contractors and others, shall have the right to operate within or adjacent to the Work site during the performance of such work. The Owner, the Contractor, and each of such workers, contractors and others, shall coordinate their operations and cooperate to minimize interference. The Contractor shall

include in its Bid all costs involved as a result of coordinating its work with others. The Contractor will not be entitled to additional compensation from the Owner for damages resulting from such simultaneous, collateral, and essential work. If necessary to avoid or minimize such damage or delay, the Contractor shall redeploy its work force to other parts of the Work. Should the Contractor be delayed by the Agency, and such delay could not have been reasonably foreseen or prevented by the Contractor, the Engineer will determine the extent of the delay, the effect on the Work, and any extension of time.

COOPERATION. When necessary, the Contractor shall so conduct its operations as to permit access to the Work site and provide time for utility work to be accomplished during the progress of the Work.

IV. PREPARATION AND SUBMISSION OF PROPOSALS

A. General Instructions

Proposals shall be submitted on the forms provided or copies thereof and must be signed by the bidder or bidder's authorized representative.

Any corrections to entries made on any proposal shall be initialed by the person signing the proposal. Bidders must quote on all items appearing on the proposal, unless specific directions allow for partial bids. Failure to quote on all items may disqualify the proposal. When the bids on all items are not required, bidders shall insert the words "No Bid" where appropriate.

Alternate bids will not be considered unless specifically called for in the proposal. Only proposals with the original signatures will be considered.

Modifications to proposals already submitted will be allowed if submitted in writing or by facsimile prior to the time fixed in the Notice Inviting Bids for opening of proposals.

Modification shall be submitted as such and shall not reveal the total amount of either the original or revised proposal.

In order to ensure consideration, the proposal should be enclosed in a sealed envelope clearly marked PROPOSAL, including the name of the job and the opening date, and then filed with the Desk

Receptionist at the Good News Rescue Mission, 2842 S. Market Street, Redding, California 96001, before the time set forth in the Notice Inviting Bids. Proposals received after the time indicated will be returned unopened.

Requests received after this time will not be considered. Requests shall clearly describe the product for which approval is asked, including all data necessary to demonstrate acceptability. If the product is acceptable, the Housing Specialist will approve it as an addendum to be issued to all prime bidders on records.

C. Contract Form

As a convenience, bidders are provided sample contract documents which include a complete set of bidding and contract forms. These are to serve as an illustration only and are not to be detached from the package and submitted with the proposal. Separate copies of bid forms are furnished for that purpose.

V. LIST OF SUBCONTRACTORS AND MATERIAL SUPPLIES

Each bidder shall submit with bidder's proposal, a list showing the name, address, license number, and type of work to be performed by each subcontractor who will be employed by the contractor; and the name and address of each material supplier to be utilized in performance of the work. After award of the contract, if additional subcontractors or material suppliers are needed, the contractor will submit in writing to the owner for approval the name, address, license number, and type of work to be performed by each additional subcontractor, and the name and address of each additional materials supplier, c/o the Good News Rescue Mission, 2842 S Market St, Redding, California 96001.

Although the bidder is not required to attach such Certifications by Proposed Subcontractors to his or her bid, the bidder is hereby advised of this requirement so that appropriate action can be taken to prevent subsequent delay in subcontract awards.

VII. WITHDRAWAL OF PROPOSALS

Any bidder may withdraw his or her proposal personally, by facsimile or other written request at any time prior to the scheduled time for opening of the proposals. No bidder may withdraw a proposal after the time set for opening thereof. Negligence on the part of the bidder in preparing a proposal shall not constitute a right to withdraw the proposal subsequent to the opening of proposals.

VIII. PRESENCE OF BIDDERS AT OPENING

At the time and place fixed for the opening of proposals, the contents of all proposals will be made public for the information of all bidders and other interested parties who may be present in person or by representative.

IX. PRICES

In the case of discrepancy between unit prices and totals, unit prices will prevail. The bidder must include the base bid price and all alternates shown on the bid form. No segregated bids or assignments will be considered. Unit prices will be used only when indicated in the specifications.

X. AWARD AND EXECUTION OF AGREEMENT

The contract will be awarded on the basis of the apparent low bidder, including full consideration of the base paid price and any alternates.

The owner and the City reserve the right to accept any bid and to reject any and all bids, to waive formalities of bidding, or to negotiate contract terms with the various bidders, when such is deemed by the owner to be in the owner's best interest.

The owner reserves the right to disqualify bids, before or after the opening of proposals, upon evidence of collusion with intent to defraud or other illegal practices upon the part of the bidder.

Each bidder shall be prepared, if so requested by the owner and the City, to present evidence of bidder's experience, qualifications, and financial ability to carry out the terms of the contract.
